

Say Hello To The Future Of Anti-Fouling
Wave Goodbye To Weeds, Barnacles, Mussels, Toxic Biocides, Microplastics, Hull, Etching & The Endless Cycle Of Hoisting, Jetting, Cleaning, Masking, Repainting...

ANTI-FOULING FOR ALL LEISURE VESSELS

- HIGH PERFORMANCE
- ENVIRONMENTALLY SAFE, NON-TOXIC
- INAUDIBLE TO HUMANS, FISH & MARINE MAMMALS
- WORKS ON **HULLS**, KEEL COOLERS, **STERN DRIVES** PROPELLERS, **WATERJETS**, IPS DRIVES, **KEEL COOLERS**...

Sonihull ECO – Protects with the power of Ultrasound

Keeping bio-fouling at bay, wherever you have unwanted weed, algae, mussels or barnacles. From Family cruisers to superyachts, Sonihull ECO will improve your boat and transform your boating.

Before

After

Hulls & Keel Coolers

Pipework & Valves

PROTECTS INSIDE & OUT

Typical Results

Before - 12 months of normal operation with existing antifouling systems and regimes

After - 12 months of normal operation after cleaning & fitting Sonihull ECO system

SAVING THE OCEANS ONE BOAT AT A TIME

Sonihull ECO Benefits

- Environmentally Friendly, Works In All Waters
- Use Anywhere Water Touches Hard Surfaces
- Works on FRP, GRP, Steel & Aluminium
- Ultrasonic, Industry-Proven Results
- Fit & Forget, No Through-Hull Fittings Or Consumables
- No Drilling, Etching Or Toxic Anti-fouling
- Zero Microplastics From Ablative Coatings
- Low Power (3.6W) Perfect for Shore & Boat Power
- Inaudible to Humans, Marine Mammals & Fish
- Zero Interference With Other Electronics
- Less Downtime = More Boating Time
- Improve Boat Speed & Reduce Fuel Consumption
- Keep Fouling At Bay Without Dry-Stacking Or Boat Lift

EVERYTHING YOU NEED TO PROTECT AGAINST BIO-FOULING

The World's Most Advanced Ultrasonic Anti-Fouling System. Control Boxes, Transducers, Cables, ABS or Aluminium Mounting-Rings, Pipe, Keel Cooler & IPS/Stern Drive Adaptors
